A Letter from the President

The Acton Fair Officers and Directors welcome our many vendors, exhibitors and guests to the 158th fair.

With the many state mandates and requirements to be followed, presenting agricultural displays along with declining agriculture in this area presents a challenge in this day and age.

However, this year we will have a second pig scramble, 4-H baby beef calf lottery, and 2024 baby beef auction including market hogs and market lambs. Also added this year will be a corn maze for children and laser tag.

Since the reopening after the Covid-19 pandemic we have made great strides to improve the fair overall, including improvements to structures and grounds, electrical updates and later this year a new water system is planned.

Looking forward to 2025 that will be our 160th anniversary we welcome you to contribute any thoughts and ideas for this celebration. Any old photos and fair memorabilia would be greatly appreciated.

Thanking all of our officers, directors, superintendents, sponsors and volunteers for your continued support making this fair successful.

Sincerely,

Roger T. Ridley, President

The 158th Annual Acton Fair is dedicated to

Richard W. Burke Sr.

7/25/1930 – 8/19/2022

Past Vice President Dick Burke was a part of the fair for 59 years serving as director from 1963-1995, Vice President 1995-2016, Director Emeritus 2016-2022. Dick could be found either at the gates or in the camping area ready to help anyone at any time with any project. Dick had a huge heart which was evident in his love for his family and the fair.

AGRICULTURE RECOGNITION

ACTON FAIR APPRECIATION AWARDS TO YORK COUNTY AGRICULTURAL LEADERS

The Libby Family and Libby and Son U-Picks,

Donald, Michael & Aaron Libby

Three generations of the Libby family have been commercially growing fruit in Limerick since the 1940's. At the young age of 12 Donald Libby started working on a local apple orchard owned by relatives of First Lady Eleanor Roosevelt. The orchard was purchased in the 1950's by the Hall Brothers, of Hall & Cole Produce and incorporated as Three Hills Apple Orchard. Don cared for the orchard the next 40+ years. Michael, like his father Don, worked on the orchard from a very young age. After pursuing other careers, Mike returned to the orchard full time. In the late 1970's the farm diversified by growing highbush blueberries. Through the 80's & 90's many bushels of apples and many tons of blueberries were picked, boxed and shipped throughout New England. Local markets and pick your own options were expanding with each passing year. By the late 90's the Hall Family had decided to sell the orchard, mostly for the value of the property. Don retired in 1999 and that would be the last harvest season for Three Hills Orchard. After retirement Don remains around the orchard helping in any way he can. Facing employment uncertainty, Mike chose to purchase the highbush blueberry part of the orchard. The goal from day one for Mike was to transform the reliance on wholesale to retail/pick your own. Like his grandfather and father before him Aaron started working on the orchard at a young age. Aaron is a current member of the Maine State Pomological Society Executive Committee and Past President and in 2020 he was the recipient of US Apple Association Young Grower's Initiative and Fruit Grower's News 40 Under 40. While serving in the Maine Legislature Aaron submitted and was successful in passing Limited Liability for Agritourism bill into law. Since 2000 Libby's Farm has been operating as Libby & Son U-Picks, a pick your own fruit farm with fun for the whole family. Twice Libby's has been voted in the USA Today's Top 10 Apple Orchards in the country and is nominated for the third straight year.

In Memory

Edward Michael Cook

9/22/1935 – 5/6/2022

Mike was involved with the Fair Museum since its beginning, and with the 4-H in all their work. He helped set up the original displays in the former 4-H Extension building with many of his own tools gathered from his farm, organizing them on large boards. When the new building was built, he was delighted to expand the displays with donations from everyone interested in showing “Our Stuff”. Mike had a wealth of knowledge which he was glad to share with anyone who had questions and delighted in showing the next generation how equipment worked.

Roger Boucher

8/01/1935 – 10/12/2022

Farming was always in Roger’s genes. In 1980 Roger became involved with the 4-H Beef Club and helping with the 4-H Livestock barn at the fair. In 2003 he assisted the club in getting a grant which started the construction of the first chicken hatchery at the fair. Within two years’ time it was obvious it needed to expand and he built the octagon incubator which can be found in the Exhibit Hall today. Roger watched and cared for hundreds of chicks that have been hatched over time. He loved chatting with everyone who came to see them and was always available to answer any questions and help whenever needed.

Health Requirements for Livestock and Poultry

- All livestock trailers will be parked next to the fence in the campground. Domestic animals and poultry showing signs of external or internal parasites and/or contagious diseases, and other domestic animals and poultry having been in contact with these animals may be ordered removed and may be quarantined at the discretion of the Commissioner.
- Domestic animals and poultry shall not be permitted on fairgrounds, livestock and poultry shows and exhibitions if they originate from a herd or flock under quarantine.
- All poultry for exhibition must originate from flocks that have an official Pullorum-typhoid clean rating.
- All equines originating from within the State must have a current negative Coggins or E.L.I.S.A. test done within 36 months. Equines entering the state must have a negative Coggins or E.L.I.S.A. test done within six (6) months of entry into Maine.
- Livestock and poultry originating outside the State of Maine must meet the requirements for entry into the state. Permits, health and testing requirements may be obtained from the Division of Veterinary Services at (207) 287-3701 or Fax: (207) 287-7548.
- We strongly recommend that all animals for exhibition purposes be vaccinated for rabies by a veterinarian prior to exhibition where a rabies vaccine exists for that species.
- Potential for exposure to disease does exist at fairs. It is also recommended that exhibitors protect their flocks and herds by vaccinating their animals against contagious diseases. This is best done under the supervision of a veterinarian. We also suggest an isolation period before exhibited animals are reintroduced to the home herd or flock.
- If you have further questions, please contact the Division of Veterinary Services at (207)287-3701 or at State House Station 28, Augusta, Maine 04333-0028.
- ALL LIVESTOCK will be inspected by the Veterinarian on site upon arrival prior to unloading.

CATTLE DEPARTMENT

No Pets. Service Animals Only Are Allowed On The Fairgrounds.

No more than 2 entries per exhibitor per division.

Exhibitors are limited to 12 head of cattle.

- We have room for approximately 125 head of cattle. Entries from exhibitors from the past two years will be given preference. Other entries will be on record and if stall space becomes available exhibitors will be notified in order of date received.
- Beef, Dairy, and Sheep Shows both Open and 4-H will be open to all Maine and New Hampshire Counties.
- It is desirable that the different breeds be stalled together. Therefore, please make all entries by August 15th, along with your certificate of insurance.
- All cattle must be in place Thursday at 8:30 A.M. and remain until 6:00 P.M. Sunday unless given special permission by the cattle superintendent. Premiums will be withheld for early departure.
- **Animals must be pure bred for recorded and group classes.**
- **Entries and certificates of \$1,000,000.00 liability insurance with Acton Fair named on the certificate must be on file before animals are unloaded or stalled.**
- All bulls over 1 year old must be handled and shown with a halter and a lead attached to a nose clamp or ring in the nose.
- All bulls must be registered.
- Grade females may be shown.
- All animals must be entered in the name of the owner.
- No entry or stall fee
- All animals shown in group classes must have been shown in individual classes.
- Cattle trucks and trailers will park in specified areas.
- No children in backpacks will be allowed in show ring.
- The secretary's office will be open all day Wednesday until 9:00 PM for livestock exhibitors to obtain passes.
- ALL LIVESTOCK will be inspected by the Veterinarian on site upon arrival prior to unloading.

TO ALL CATTLE OWNERS

All stalls will be bed down when animals arrive. All further bedding will be supplied by the exhibitor. It is recommended that you have your cattle vaccinated against Infectious Bovine Rhinotracheitis (IBR), Parainfluenza-3 (PI-3), and PVRB. These diseases are widespread and may cause respiratory trouble in cattle and secondary complications. It is also recommended that all cattle be vaccinated against rabies.

MARINATED WHOLE MUSHROOMS

Submit 2 - Half Pint jars using recipe below. Class 44B-19,

Entries accepted Tuesday 9:00 AM - 8:00 PM and Wednesday 9:00 AM - Noon.

Premiums

1st \$10.00, 2nd \$8.00, 3rd \$6.00

Ingredients

7 lbs. small whole mushrooms
½ Cup bottled lemon juice (not fresh)
2 Cups olive or salad oil
2 ½ Cups white vinegar (5%)
1 Tablespoon oregano leaves
1 Tablespoon dried basil leaves
1 Tablespoon canning salt
½ Cup finely chopped onions
¼ Cup diced pimiento
2 Cloves garlic, cut in quarters
25 Black peppercorns

Yield: about 9 half pint jars

Select very fresh unopened mushrooms with caps less than 1¼" in diameter. Wash. Cut stems, leaving ¼" attached to cap. In pot add lemon juice and water to cover. Bring to a boil. Simmer 5 minutes. Drain mushrooms. Mix olive oil, vinegar, oregano, basil and salt in saucepan. Stir in onions and pimiento. Heat to boiling. Place ¼ garlic clove and 2 or 3 peppercorns in each half-pint jar. Fill jars with mushrooms and hot, well-mixed oil/vinegar solution, leaving ½" headspace. Remove air bubbles. Wipe jar rims. Adjust lids. Process half pints for 20 minutes in a Boiling Water Bath.

1. Must use biscuit recipe listed below using Bakewell Cream.
2. Enter 4 biscuits on disposable plate.
3. Exhibitor must bring in a UPC label from Bakewell Cream or an empty Bakewell can.

Ingredients:

4 cups flour	4 teaspoons Bakewell Cream*	2 teaspoons baking soda
1 teaspoon salt	½ cup (8 tablespoons) cold butter	1½ cups cold milk

1. Preheat the oven to 475°. Lightly grease a baking sheet, or line with parchment.
2. Whisk the dry ingredients together in a bowl.
3. Work in the butter till the mixture is crumbly; some larger, pea-sized pieces of butter may remain intact.
4. Add the milk, stirring till everything is moistened.
5. Turn the dough out onto a clean work surface (a silicone mat works well), and fold it over once or twice. Pat into a ¼"-thick square or rectangle.
6. Cut the biscuits with a square cutter or cut into 2 ½" size. Place them on the prepared baking sheet. Brush tops with milk or melted butter, if desired.
7. Bake for 5 minutes, then turn off the oven. Leave in the oven for an additional 5 to 10 minutes, till they're golden brown.
8. Yield: about 1 ½ dozen biscuits.

*NOT Bakewell Cream Baking Powder; just plain Bakewell Cream.

Arsenic in your water?

Contact your water treatment professional and ask for the npXtra

Arsenic is colorless, odorless, and tasteless.

“Arsenic is one of the highest environmental cancer risks.”

- Arsenic Health Effects Program,
University of California, Berkeley

Providing Peace of Mind

The npXtra Arsenic Reduction system is a total comprehensive solution which includes a testing program to monitor arsenic levels.

The npXtra system is a whole house program - all the water in your house is treated - not just one faucet. With the npXtra, you can drink from any tap, water your garden, swim in your pool, or take a shower without worrying about arsenic exposure.

npXtra system advantages:

- No connection to sewer or septic required
- System is always in service
- No wasted water
- The hardware is simple and reliable
- No arsenic-laden waste is released at home
- Models with flow rates up to 15 GPM
